We hereby remind you that the issuance of the Certificates of Inspection of Crew Accommodation (CICA) is related to the amount of accommodations available on the vessel.

The reason for the above is that in several occasions the Certificates filed to be countersigned, make reference to the crew number on board, and not to the number of accommodations available, as it is established by the ILO Convention No. 92 “Concerning Crew Accommodation on Board”, and Resolution 614-257 ALCN of August 31<sup>st</sup>, 1984.

Without any further business to discuss,

NA/GV.
